

YUM! Restaurants International  
Supply Chain Management

May 14, 2010

Attached please find information regarding the use of Eco-Tabs Tablets.

Eco-Tabs has presented to us a product that will potentially change the maintenance of the KFC, Taco Bell and Pizza Hut restaurants, mainly grease traps.

Some of the benefits of using Eco-Tabs are the following:

- Cost savings
- Increases equipment efficiency
- Safe, non-hazardous and environmentally friendly
- Mitigation of odors and reduces FOG, N<sub>2</sub>O & BOD levels

Eco-Tabs are approved for use in Yum! Store locations and we have heard from several franchisees how well the product is working for them. We look forward to promoting Eco-Tabs to other markets within Yum!

Any questions or comments please do not hesitate to contact me.

Regards,

*Fernando*
